■ Editorial

Assalamu'alaikum warahmatullahi wabarakatuh!

Bismillahirrahmanirrahiim...

Fabiayyi alaai rabbikumaa tukadzibaan? Indeed, we really no reason to answer the question that pitched challenges mentioned many times in this *surah Ar-Rahman*. Ar-Rahman, Allah is love Almighty, the Creator of the Universe, so that in publishing *warkat* process, seems universes support, His affection. *Alhamdulillah*, although this expression is so far of sufficiency to represent our thankful for Him, but we hope, may what we did to get added value of Him and can contribute substantially to the many people. *Amiin!*

Allahumma sholli 'ala Muhammad, we deliver to our last prophet kami, Muhammad *al-Musthafa*, man who soft-spoken, clever in strategy and manage time. At least, a little more in the process of finishing this brief information, we've tried to take a step quicker than before to be able to omitted *uswah*. Tried to act and speak softly when many things come and tend painful. Trying to organize a strategy such—although it is not as powerful as war strategy Prophet—in the middle many work that comes confusedness which is priority and which is put sides. Trying to run at full speed when the time draws heavily, choke, curb so great. *Subhanallah, Allahumma sholli 'ala Muhammad!*

Syukron katsiiran we deliver to kaia for entrusting and opportunity to study and dedicate more intents through brief information publishing. Prayer and support you *Antum* make our spirit more and more surge to continue working. *Thank you very much for it!* This thing we deliver to all of committee of *warkat* and person who participated, either directly or no, may Allah bless us all. *Amiin!*

In this space greeting greetings, what a good if we took the first verse and the fourth of *surah al-'Alaq*—*read it in the name of Allah almighty who has created, and who had through (human) by (mean) pen*—as a form of *tawashi* and remember each other about the important of reading and result of work. Reading whatever. Writing wthatever, certainly for positive impact.

Brief of Information 2014 published as one of form application both of them, other as medium of information about Al-Amien Prenduan during a year. It contained in some report, work evaluation, alumni notes, and plannings for future that will be finished by all organizers and all of institutes that under Al-Amien Prenduan Foundation. And also it include columns which is written by responsibility of each foundation bureau and institutes which contained significant opinions.

In order to form of application both of two verses surat *al-'Alaq* above, it could run well, so read in the name of Allah. Read!, because reading is very important. May readers get benefit knowledge in *Warkat 2014*. *Amiin!* We apologize, if there are some mistakes in publishing of brief information. We seek refuge in Allah, the Lord Almighty True and Perfect.

Wassalamu'alaikum warahmatullahi wabarakatuh!

Sincerely,
Editorial Staff 2014

Existence of Dakwah Journey as Facility of Relationship and Islamic Brotherhood

Al-Amien Islamic Boarding School has two special messages for all of alumni before going down to the societies namely "*Don't be lost child*" thus, the relationship between alumni and Al-amien always maintains forever. Because the process of education for Al-Amien's student is not to stop and leave it totally after they graduated and became alumni. Al-Amien Always makes an effort to pay attention to alumni in order to monitor their development, activities, and actor of alumni in the middle societies. ■ Supervisory Council

Implanting The Responsible Private Character

The role of supervisor in organization is very important. The supervisory council has vital duty in planning, implementation, and evaluation for that institution. Its destination is for ascertaining the realization of planning that planned before. On other side, supervision is a systematic effort in deciding the standard of realization which the purpose are a good planning, designing a feedback information system, comparing the real activity with the standard, determining and measuring deviations and also taking corrective act which guarantee that all of owned resources had been used effectively.

The effective enforcement of the work that is responsible for a supervisory council need an individual who has perseverance, accuracy, and a high honestly and

persistence in working. A supervisor must have a positive value according to the public point of view and a capability in managing his work well. Finally, he would be able to manage many people's work under his responsibility. The supervisory council that exists in Al-Amien Boarding School was burdened with the universal supervision in this boarding school, either in the financial matter or other work activities.

Among of duties and function of supervisory council is as auditor from the treasurers in the institutions, controlling the work programs and developing of human resources, its medium and infrastructure. The few of units that staying under the controlling of supervisory council is the treasurer of institution and boarding school labor unit.

THE PROGRAM OF SUPERVISORY COUNCIL

As the one of organization, it certainly has program, either general program or special. General program from the supervisory council is supervision and observation generally toward the sector of program, the human resources, financial and medium by making the four divisions under the protection of supervisory council function. The second, a special program from supervisory council is stabilizing the financial in every institution, and planning the payment unification into one locket in every institution at Al-Amien Boarding School. The destination is for restraining the happening of manipulation, deviation, wasting and the money and wealth of school abusing.

Concretely, from the few of supervisory council functions they poured out obviously as follows:

1. To analyze whether administration, finance management and other controlling methods are good or not and satisfying or not, and to enhance effective management with proper budgeting.
2. To assure how far policies, planning and procedures that have been established are to be and have been obeyed.
3. To check how far wealth and possessions of organization can be justified and safe from any kind of loss and damage.

4. To check how far data management that has been developed in organization can be relied on.
5. To inspect quality of work results in carrying out the responsibility and duty that has been handed over.
6. To offer recommendation or suggestion to enhance effectiveness and efficiency.

Thus, the method of supervision here is too needed to be more careful and also because the human being is always wrong and forgot. The method of this supervision is also as the form of service toward consumer around it. Even, there is no satisfying service without a good supervision. Serving is not only giving material or merit aid toward others. Serving is the one of dedication form. But supervision is the best dedication in the service matter.

Al-Amien Prenduan Foundation ■

Towards of Making The Centre For Al-Amien Archives

Other easy language that archives could be interpreted to collection of information such as pictures (documentation) or non-pictures (document). Earlier at 80s years, Al-Amien made PIP (Centre for Pesantren Information) located at special office. Then at the end of 80 years, it's changed to be PUSDARMEN (Centre for date and documentation). When it runs well to carry out its functions to provide in some information for guests, and finally the management changed of centralized archival system to decentralization in line with growing the institutions in Al-Amien.

Moslem scholar gave thoroughly autonomy to each institution to manage it until the middle of early 2013. The middle of 2013, Chief of cottage has opinion to bring back pesantren archival product that had formed, namely

he wants PIP and PUSDARMEN formed again, and at October 2013 Archival and library council held the program namely "How to manage the pesantren archival" at Tretes, and Al-Amien invited Ust. H. A. Tijani Syadzili, Lc as secretary of Al-Amien Prenduan Foundation (YAP) to attend it, and as gift, he directly held "archival for teachers who is on duty in the archival each education institution that under Al-Amien Prenduan Foundation.

The at middle of December 2013, Al-Amien got respectability that attended by council for library and archival of Surabaya. So, motivation to be the dreams in establishing centre for archival more increasingly. The first step has begun by collection teachers' works, collection of students, documentation old and new picture. And earlier of June 2014, form centre for archival began to be seen by

name "Centre for Al-Amien Prenduan Archival"

Meanwhile management of archival that will be started is; textual archival, cartography archives and architecture, audio-visual archives and computer archives or information and technology product.

SECRETARIAT OF YAP

As car, secretariat is its wheels. That always moves on implementation of program and motivates if there was some program is not to run well, in addition, it has significant duty to accompany and help chief in his duty in daily.

The secretariat has three functions: Record management, Information and Communication Center (ICC) and Al-Amien Video Shooting (AVS)

RECORD MANAGEMENT

It is led by Ust. Ilyasin and Ust. Ulil Azmi. It is daily duties nearby computer, to manage correspondences, and archival. Data collection for student and alumni become special attention and it continually completes by hoping to be come true of centre for information.

ICC (Information and Communication Center)

Information and Communication Center (ICC) that was led by Ust. Ishlahuddin Saribone is institute information and communication centre (PIK) at Al-Amien Prenduan Islamic boarding school, its vision to be institute for reliable and competent information and communication at Al-Amien Prenduan.

Meanwhile the first mission is; first, to form information network (LAN) at around of Al-Amien Prenduan Islamic boarding school. Second; to provide information for require all parties worked through the website.

The scope of work operations ICC is: first; to provide information in and out of Al-Amien Prenduan Islamic Boarding School. Second; to build and develop SDM at

reliable TIK field.

Information Service Division

It focused on management of *website*. Our website has provided and spared the important information about Al-Amien Prenduan. This time, information for new student enrollment could be accessed at Al-Amien website, even though enrollment through On-Line for new student could be started for this year.

Development ICT Division

Development of ICT that has run is internet network development fo all of office at Al-Amien Prenduan Islamic boarding school. This division is more focusing as consultant, because each institute has implemented LAN like at TMI, MTA, Putri I and IDIA Prenduan.

Development of SDM Division

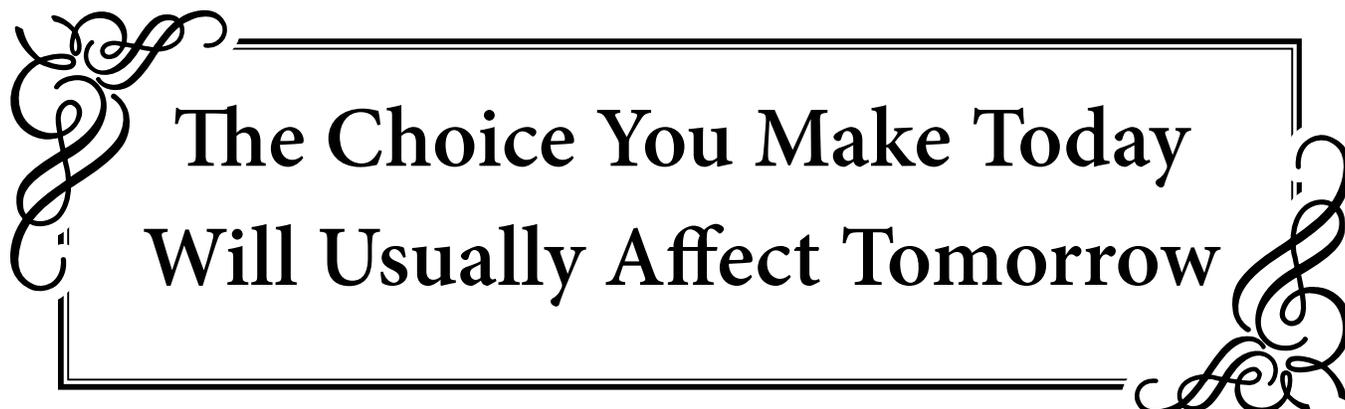

It focused on SDM development at information technology, included to provide the materials for teacher and student either about information and technology or materials based on information and technology.

AL-AMIEN VIDEO SHOOTING

Al-Amien Video Shoting that managed by Ust. Rizky Ramadhan and Ust. Imam Isma'il, to manage either pictures or video. although by simple instrument, it is enough for necessary documentation especially at AL-Amien Prenduan.

Enhancing/Increasing The Integrity of “Daurah ‘Arabiyah”

“Daurah ‘Arabiyah” is the main program that implemented in Al-AmienPrenduan boarding school every year. The material taught are; Nahwu and Shorrof, Ta’biir and Conversation, Writing and Translates, Reading a books, Listening, Parsing, How to teach Arabic language, How to use the facilities and infrastructure, Watching Arabic movies, Arabic Conversation and Discussion.

Daurah Arobiyah is the responsibility of the bureau of education and acculturation that implemented by *Markazul Lughah* or Language Participants specifically. The event was attended by representatives from every agency in the boarding school environment that consisting of; IDIA (Institute of Islamic Studies) Prenduan are 5 persons of male and 5 persons of female. 45 of TMI male and 40 for female. 20 persons from MTA male and 15 for Female. Al-AmienTegal boarding school are 15 persons and from Al-Amien Female 1 are 5 persons. That’s all about 140 persons of Language Participants.

DaurahArobiyah was implemented from 17th-21st R. Tsani 1435 AH, that followed by male-female teachers and male-female students in Al-Amien boarding school. This event was implemented at Guest House for male and Multifunction Building (GESERNA) for female. Especially for male Teachers at TMI Auditorium and at Multifunction Building for female Teachers. Besides Daurah ‘Arabiyah, it also held “Language Week” that starts on Monday, 24th R. Tsani 1435 AH-Sunday, 30th R. Tsani 1435 AH, which is located in each of the Institute respectively.

The purpose of the implementation of this program are to create the feel of the Arabic language nuance in Al-AmienPrenduan boarding school, to apply the knowledge and skills for each language of male and female students, As these skills include (Conversation, Writing, Translating, Nahwiyah rules, Shorfiyah rules, and Reading a book). And the most important is to grow the ability of female students language, either writing, reading, and more important is practice of daily conversation.

The implementation of Daurah ‘Arabiyah is a high concern and a desire to progress and improvement the quality of the Arabic language of students at Al-Amien Prenduan Boarding School. And also we hoped that the delegates from each of these institutions can plunge in the

middle of each students directly, who are the responsibility of their institutions. And also we hoped to the all delegation makes their regeneration could to continue Arabic development estafeta, that the Arabic language is *Tajul Ma’had* (crown of boarding school) can be exist and evolving and to achieve integration of language whenever it.

eL-PsikA

The institution of Psikologi Terapan Al-Amien (eL-PsikA) is the first and the only institution of psychology in Al-Amien Boarding School. This institution was established at 30 March 2011.

The presence of Psikologi Terapan Al-Amien (eL-PsikA) institution is a new division that exists under the shelter of Education and Cultural Bureau. The institution that established by K. Bagus Amirullah Khaliq, M.Sy and Ny. Nazlah Hidayati, M.Psi is an institution that is active in the physiologic applied sector, especially physiologic consultation for all of students in Al-Amien Boarding School area.

As the new institution, it has a new purpose. The institution of eL-PsikA was established and formed with a purpose as the medium and container psychological

consultation and guidance for students, male and female. In the larger context, besides for students, eL-PsikA also can be accessed by all big families of Al-Amien. Including teachers, alumnus, and person responsible for a student or employee.

Therefore, eL-PsikA was hoped to be able to help in overcoming the psychological troubles that owned by all occupants of boarding school, especially for students, and help the functional teachers (homeroom teacher, the master of shof, musyrif, mutsaqqif, musahhil) in accomplishing supervision for members optimally. Besides, eL-PsikA also hoped to be able to form the student healthy behavior, whether individually or in a group, until the Islamic and educational vision of education can be reached automatically.

For this year, Psikologi Terapan Al-Amien (eL-PsikA) institution had organized the consultation and counseling. The consultation was carried out by two methods: The first, by facing to face. The second, by writing every day. Besides, eL-PsikA also had carried out the personality, intelligence, aptitude and desire test that carried out every day. The accomplishing of personality, intelligence, and aptitude and desire test also carried out by facing to face, counselor gives an instruction to client after giving the answer paper, question paper and posttest. Every question point has each its durations of time. The final result is informed to client through pass letter because it was a secret.

■ Dakwah and Social Development Bureau

Creating a Cultural Society

Founding toward society is a valuable education for the sake of public progress, especially for everything that related to religious matters. Actually in the religion, knowledge is obligation for all of Muslim and Muslimat, for the sake of their foothold in life on the world and hereafter later. In this case, Yayasan Al-Amien Prenduan (YAP) maximizes the existence of Dakwah Bureau as the medium in developing the public knowledge about religion. Because the dynamical life demands them

to do the concrete, creative and innovative steps. The existence of Dakwah Bureau is hoped to be spear tip in bringing about the mission of dakwah, either conceptually or operationally. Connected to dakwah, jihad is the main key in bringing about all of the purposes of dakwah. The seriousness, consistence and professionalism have to been on each personals of this bureau.

Dakwah Bureau is an institution that active in the public establishment and pushes ahead the social of

religious proselytizing by each program means. This case was appeared with programs that organized by Dakwah Bureau and all of it are connected to society, especially toward society around Al-Amien Boarding School. From Ta'mir Division, the programs that are organized, among others: Islamic Good Days, like Muhammad's Miraculous Flight from Mecca to Jerusalem (Isra' Mi'raj), the Birthday of Prophet Muhammad saw, Day Commemorating Descent of the Qur'an (Nuzulul Qur'an), Eid al-Fitr, Eid al-Adha, and anniversary of Islamic new year. From LPPM, the programs that are organized, among others: Tuesday afternoon recitation which specialized for Boarding school functionary only, the midst of month recitation for boarding school society that called by Pengajian Muhajirin. This midst month of recitation is instructed by Kiyai Council or A'wan Council directly.

This time, Dakwah Bureau and making efficient use of the society had formed three divisions in carrying out dakwah and using society efficiently. Those four divisions are: Mosque Warden, Radio Suara Dakwah Al-Amien Prenduan (RASDA), Social Development and Empowerment Unit (LPPM) and Shoutu Al-Dakwah Al-Amien Prenduan (SHODA). From those four divisions, nowadays, Dakwah Bureau always increases the rise of dakwah dedication among society.

TA'MIR

Grand Mosque of Al-Amien Prenduan (Masjid Jami') played an important role in the founding of Al-Amien student. For student, it is not function as the place of mahdah praying only, like praying and worship, but as the place of education also. In the framework of its actualization, it was needed an organizer of Ta'mir who can help the realization of that program. While those programs are including: Idaroh and the administration program. Imaroh or programs that aim at the student founding, like: Implementing of five compulsory daily prayers, tadarrus fardhi, tadarrus muwajjah, and etcetera. Ri'ayah or programs that are connected to physical development (medium and infrastructure).

Well, the weekend programs of Ta'mir are tahsinul ibadah (prayer manner refinement) with the instructor, KH. Fadli Fatroh, S.Sos.I (Master Teacher of Fiqh) and tahsinul qiro'ah (refinement of reciting the Qur'an method) with the instructor, KH. Abdullah Zaini, M.Th.I (Master Teacher of Al-Qur'an). Not only that, Ta'mir also carried out the annual routine activity in the Islamic big days, like Isra' Mi'raj, Milad an-Nabi (Birthday of Prophet Muhammad Saw), Nuzulul Qur'an (The Descent of Al-

Qur'an), Eid al-Fitr, Eid al-Adha, the anniversary of Islamic new year, and etcetera.

RASDA FM

In the connection to dakwah, it s needed a medium that make the channeling of dakwah purpose easier. The existence of the station of Radio Suara Dakwah Al-Amien (RASDA FM) is a concrete step in guiding morality and establishing the ukhwah islamiyah among Muslim society.

But not only that, RASDA FM that got Recommendation letter of Broadcasting Eligibility License from KPID (Komisi Penyiaran Indonesia Daerah) also make a serious efforts to fulfill the public requirements toward information that struggle for religious values and local wisdom and even national with all kinds of program creativities that programmed to public.

For the next, RASDA FM is hoped to be the most effective medium in spreading Islamic doctrine, until all of the hopes would be reached.

LPPM

The process of dakwah implementation was done for reaching a certain values. The certain value that hoped can be gotten by doing activities and realizations of that dakwah. Yayasan Al-Amien Prenduan had made a serious effort to do the noble vision of Islam by Social Development and Empowerment Unit (LPPM) means that exist under the responsibility of Dakwah Bureau.

In the connection of that realization, LPPM has two routine activities, among others: Tuesday afternoon recitation which specialized for Boarding school functionary only and the midst of month recitation for boarding school society that called by Pengajian Muhajirin. This midst month of recitation is instructed by Kiyai Council or A'wan Council directly.

Besides, by this institution, Dakwah Bureau that is staying under the shelter of Yayasan Al-Amien Prenduan strove for the strong feeling of mutual respecting and mutual helping within togetherness and brotherhood by rice sympathetic care means toward weak peoples and participant of Pengajian Muhajirin that carried out for once in a month.

For this year, by its new system means, Dakwah Bureau allow the paddy cab driver that operated around Al-Amien Prenduan Boarding School to join with the community of Pengajian Muhajirin. By the existence of the recitation series above, is hoped to be able to guide the society who has a good religious understanding. Amien.

SHODA

Shoutu Al-Dakwah Al-Amien Prenduan (SHODA) is a group that exists under the shelter of Dakwah Bureau. This Islamic music group has a purpose as the dakwah medium by religious music means and also as the medium to take and guide the students who has talent in singing. The existence of SHODA this year is not too visible in the Al-Amien Prenduan Boarding School area. But, its action was familiar in the large of public area, especially in Madura. The four regencies in Madura had been sounded out by SHODA's action and for out of Madura that had been visited by SHODA are Jember. As such, SHODA still

felt exist among large society.

Special for this year (2014), SHODA was more developed in Al-Amien Prenduan Boarding School area by recruiting new member from students, especially class V TMI Al-Amien Prenduan.

This Bulletin is handled directly by Publication and library section at ISMI and organizers of P3A.

HUMAN RESOURCE DEVELOPMENT

This division is very important to increase student quality in scientific, and also for teachers and societies who have commitment in scientific development. So, this year, this division has an effort to as optimal as possible to give interested program such as workshop, training, book review and seminar which is speaker local till national level.

The first program is connected to students which held by human resource development division is weekly discussion with student scientific group of TMI Male at Centre for Al-Amien Prenduan library (P3A). in discussion about skill development, especially in the world of reading and correspondence.

The second program, Guidance writing by Director of Pusdilam Ust. Ach. Shodiqil Hafil, M.Fil.I with student group of FK n (Forum Kajian Tafaqquh Fiddin) at TMI female Al-Amien Prenduan on 20th April 2014. The discussion in the scientific world it remains occupied by each of the students, the world of reading and writing, and more specifically to the study of jurisprudence that discussed them so far.

The third program, the Centre for Islamic Studies (PUSDILAM) tries to step to hold book discussion event "Young Majesty" and Motivation Students are held by the Centre for Islamic Studies (PUSDILAM) Al-Amin and Bapusbit ISMI / ISTAMA Mizan Publishers working with the Main Media Bandung opened directly by the Vice – principle of Ma'had TMI KH. Khozi Mobarok Idris, MA. The event was held on Friday 20th September 2013. At 7:30 a.m. to 11:00 a.m. it held at the Multipurpose Building (GESERNA) TMI Female Al-Amien Prenduan, Sumenep

Madura. And the event was attended by participants who numbered approximately 742 people (TMI male: 204 people, female: 402 people, MTA male: 29 people, female: 102 people and IDIA: 5 persons).

The fourth program, held a workshop TMI writing. The event was organized by Publication and library section of ISMI collaboration with the Center for Islamic Studies (PUSDILAM) Al-Amien implemented and driven by all committees of the board or class V students they are very enthusiastic in preparing for this event. Seen from the consultation they often struggle in submitting a concept that will be specifically served to participants and to all students in general.

TMI writing was held at Al-Amien Prenduan and special just for men only among students and not simultaneously carried out in female students. And presents two energetic speaker and first grade: Ust. Ahmadi Toha and second: Ust. Idris Toha. While the participants were taken from each shof from grade one to grade five are a total of ten 143 participants who became representatives each *shof*.

The event was opened by director of TMI K. Drs. Suyono Khatthab on Friday, 18th April 2014 AD In the implementation is divided into two time. Afternoon at the clock: 15:30 to 16:30 pm and Evening: at 19:30 to 20:30 pm. In his speech he hopes the motivation of the students to always love writing in particular and the world in general science never faded until whenever. This event closed by Vice-principle of Ma'had TMI KH. Mubarak Khozi Idris, MA on, Friday 25th April 2014 AD in speech, he hopes although TMI writing event is closed, but that is closed event only while the culture and traditions of writing and writing must continue and develop in the middle among students, no knows limited time. Implementation of TMI writing event is going well and smoothly and attract enough participants and also all students, especially in the dialogue with the speakers, as punctuated by answering a few questions from the students.

The aim to hold TMI writing to increase students creativity in the world of writing and also aware that the actual writing was very important to be studied and explored. Because reading without writing it out of balance and need to write.

The Improving Public Services Through Qualified and Professional Islamic Health Care

Al-Amien Prenduan Clinic is a non-government agency under Al-Amien Islamic Hospital in the field of professionals and spiritual-based health care that aims to health care equity.

Established since 1994, Al-Amien Prenduan Clinic which is called BPSK (Students and Family Health Care Center) at that time could not perform public health services satisfactorily because of inadequate requirements such as the number of employees (two paramedics only) and the tools (incomplete yet). Therefore, BPSK could merely help students and teachers. Then, in 2008 did BPSK change its name to Al-Amien Prenduan Clinic. There were many improvements from this change such as the number of employees (from 2 to 4 paramedics) and health services improvement, not only for students and teachers but also for public (general patients). However, it still could not provide hospitalization services.

By the end of 2010, Al-Amien Prenduan Clinic was feeling capable and had strong desire to be better than before, so that it made remarkable effort. It had its name changed to Klinik Rawat Inap Al-Amien (Al-Amien Hospital Clinic). The change was made by Sumenep government. Starting from this time, Al-Amien Prenduan Clinic rapidly grew as proved through the general hospitalization which at that time became available for both students and public. It did not stop at that point. It continued growing in the way to make KH. Moh. Tidjani Djauhari, MA hope true. He hoped that someday BPSK will turn to AMC (Al-Amien Medical Center), so that all families in Al-Amien could be treated there and they will not need to go anywhere else.

This change was not a small improvement as it stimulated other improvements to be made. With all sincere and heart-to-heart hope, prayer and wish from all parties, it become everybody obsession that Al-Amien Prenduan Clinic could be self-reliant and self-governing hospital and able to provide improved health services in line with the coming demands. Therefore, using insufficient fund and having strong determination, Al-Amien Prenduan Clinic built a pretty impressive Islamic building facing to *kiblah* called Hospitalization Room. Since then, all

employees and parties seemed happier and promised to improve their performance with a saying, "SMALL BECOMES BIG, BIG BECOME PERFECT".

The building is used as hospitalization room equivalent to type B. It has different type of rooms, VIP, Class 1, 2, and 3. This improvement attracted and fostered public enthusiasm as it also attracted a student of Madura University, Pamekasan to do a research titled "Factors that Influence Public Interest in Choosing Al-Amien Prenduan Clinic". Research shows that the Clinic has greater values compared to other clinics, such as good service, adequate facilities, Islamic, and clean.

Al-Amien Prenduan Clinic was not fully satisfied with that current situation. Therefore, the responsible keep moving in fulfilling KH. Moh. Tidjani Djauhari, MA aspiration. So that, in 2013 was Islamic Hospital of Al-Amien Prenduan initially built by KH. Moh. Idris Jauhari. He hoped that the aspiration of KH. Moh. Tidjani Djauhari, MA will soon be achieved that BPSK will turn to AMC (Al-Amien Medical Center). The building process is continuously taking place with the hope that it can meet developed health service demands in accordance with Al-Amien Prenduan Clinic vision to implement the qualified, islamic and professional health service in achieving healthy and prosperous society, also with its four missions. First, conducting promotional, preventive and curative health activities. Second, cooperating with health related parties to achieve the comprehensive health service. Third, conducting health based social activities. Fourth, conducting health and social islamic da'wah activities.

THE PROGRAM OF AL-AMIN PRENDUAN CLINIC Internal Program

Electronic Attendance Roll Using ID Card and SMS Gateway

To increase student's discipline in intracurricular activity, Al-Amien I for Girls uses new system called electronic attendance roll. It is designed using coded ID card and SMS gateway. There will be, through SMS, an automatic notification for parents when students check in at the school in the morning or check out in the afternoon. It is done twice in a day, in the morning at 06.30 to 06.45 a.m. and in the afternoon at 03.00 p.m. after *Diniyah* activity. It is under responsibility of Ust. Ach. Firdaus, S.Pd.I and kept by certain teachers.

This system is used to increase student's discipline in attending the school, so that student's discipline could be directly monitored by parents, for both ones of stayed and non-stayed students. It is efficient and also effective in perserving computer technology usage. In addition, it can help school in maintaing good relation with parents.

This program will generate reports by calculating lateness, attendance and absence in whether monthly recapitulation report or detailed report or by real-time monitoring report.

Perfecting Curriculum, Developing Achievement of Students

For maximizing dedication toward society, especially in education sector, TMI tries to be consistent and intends to do all sorts of innovation for increasing the quality of educational system and can be competitive positively among global competition. Therefore, there are many things be master planning as the one form of that innovation, among others the curriculum application suggested to be applied without using integral curriculum approach, but disintegrable curriculum. Every educational sector was taught as the unit of its educational sector and not only mentioned its clump anymore, whether it is in schedule of lesson, schedule of examination, nor report.

From next year, the report would be reformed, by writing the unit of educational sector down by detail, bit

its application would be implemented gradually. Next year, it would be implemented for class one regular only, while the other classes are persisted in using old report. Furthermore, this innovation also planned by modifying a few of subject materials, among others the material of Kepesantrenan will taught in Tsanawiyah Level only, from class I until III. Then, the general material (Natural Science and Social Science) for class I and III Intensif at first semester are not taught anymore, as the substitute will added for strengthening of Dirosat Islamiyah and Arabic Language Materials. Both of the two materials just will be taught later in class III Intensif for the second semester. The material of chosen competition A for Tsanawiyah Level and class IV will only focused in Arabic and English

Language material with each guide books. The other planning is also composing of teacher's guide books for Tilawah, Insyah, Imlah, and composition material. Besides, remembering the overloaded of homeroom teacher's burden whom demanded to hold any materials, TMI planned that the teachers of Arabic Language for one class, especially in Tsanawiyah Level, are not taught by one of homeroom teacher, but taught by several of homeroom teachers.

That is not enough to be there only, the innovation also implemented by restyling the allocation of lesson period, that's by treating alike the number of lesson period allocation in the sector of Dirosat Islamiyah Education for class V and VI, whether DIA, MIPA, IPSI nor BSI. This case was aimed to standardize the Arabic Language capability of DIA and Non-DIA student. Then, the seventh period suggested to be moved forward to 11.20 a.m. by setting back the implementation of collective midday prayer. The consideration is many of students that the purity of their dresses is questioned, and also the teaching at the seventh period is not conducive because the time is too long (1 hour). The lesson period was arranged as follows: The first period: 07.00-07.40, The second period: 07.40-08.20, The third period: 08.20-09.00, The first intermission: 09.00-09.20, The fourth period: 09.20-10.00, The fifth period: 10.00-10.40, The second intermission: 10.40-11.00, The sixth period: 11.00-11.40, The seventh period: 11.40-12.20.

Creating Teacher Card

With development era that can no longer be denied. Progressing is so great in every life with a each primary mission. One of progressing era is development of education science and technology (IPTEK). For this year, Ma'had Tahfidh Qur'an (MTA) took a part of inda that contributed by Ust. Nuruddin, M.Pd. to make teacher card, this is used to teacher teaching in the morning based on each schedule's teaching.

The implementation of the card is handled directly by the teachers teaching each section marhalah. Which part of teaching directly tasked to monitor the use of the card during the learning takes place to determine the presence of the teacher in teaching.

The use of teacher card started in the MTs for female Teachers, at the early of the year 2013 AD with the first mission as an experiment to determine the effectiveness of teachers in MTA for female teacher. With the reflection of prevailing on the MTA for female teacher, comes the initiative to apply it also in the MTA male teacher that started at the early of the academic year 2014 AD.

Place of usage the teacher card is at the Marhalah office, with the supervision of teaching tsection which is in the marhalah. Thus, monitoring is conducted for teachers can run continuously and not just at certain times. And it also will become a habit of the teachers to come to Marhalah office each teaching.

The aim of procurement of card, there are two. First; it is to maintain the consistency and effectiveness of the teacher activitiveness the formal teaching in the morning. Second; it is as a reference receiver monthly *tabsyir's* teacher, because future funding *tabsyir* adapted to the presence of

the teacher in teaching. Thus, for teachers who are not present in the teaching will be charged a reduced fee *tabsyir* will be accepted.

After realized the usage of teacher card, since early implementation till nowadays, it has brought revolutions in teaching learning proses (KBM). And also it run active and more increasingly.

Upgrading The Quality of Teaching Based on Classic

Ma'had Salafy is a boarding school that gives priority to the program of teaching based on classic by using the yellow book (kitab kuning), because it is conforming to the mission of boarding school which to create students who understand the religion deeply (mutafaqqih fiddien) among society and period in the globalization era that started to unfriendly with the world and ignored the religious affairs.

The alumni of boarding school are demanded that can be adapted with the societies who were contaminated by modern era. Thus, unconsciously, the alumnus of boarding school must be able to know the modern sciences that spread among the large society. The education in Pesantren helps us so much in building the student's character toward religious science or the other.

The final program (Niha'ie) that exist in this traditional boarding school (Ma'had Salafi) has a noble purpose for its alumnus later and as the medium for them to become human who is not clever in the field of yellow book only because it is not only modern boarding school that can do it all. The final program consists of: Book Review, Clipping, Jum'at Preaching, and etcetera. This program is identical with the program that applied by TMI (Tarbiyatul Mu'allimien al-Islamiyah) Al-Amien Prenduan which intends to create the intellectual student but remained to emphasize the religion.

By carrying out the final program, the alumni of the third of Al-Amien Boarding School (Al-Hikmah Kapedi) should be able to unite science that provided at Salaf's Book which named yellow book with modern science in order to be the best unification and reference for big boarding schools in Indonesia.

Learning the yellow book as knowledge of laws and ways to be kind man in behaving the daily life because it straightaway guided by a teacher who has good competence on it. Besides, the students also had given a time to sharpen their mental by appearing as a preacher under teacher's guidance.

The final program head for making its alumnus be the leader of humankind who has modern soul but remained understand the religion deeply among society because this program demands the students to be individuals who has a certain quality. "By having this program as the medium

of teaching for the final student in order prepare themselves before joining among society," KH. Fauzi Rasul, Lc said as the Head, "Because the programs there have reconciled with the society daily lives, like praying together, and on and on," He added.

For the first time, this program applied since this boarding school changed been the third of Al-Amien Boarding School which based on salafiyah that before it use curriculum of TMI, like Al-Amien Prenduan.

■ IDIA Prenduan

Curriculum Development Evaluation of Al-Amien Prenduan Institutes For Islamic Studies 2014

The existence of curriculum as significant instrument of education demands continuous monitoring and controlling in order it runs well in accordance to the determined program. Monitoring of curriculum implementation plays important role in identifying the problems that might occur during the implementation. Moreover, through designed, regular and continuous monitoring is hoped that the obstacles of curriculum implementation could be identified, so that the alternate problem solving could be done earlier.

The aim of the implementation curriculum evaluation is to know efficiency and effectiveness of implementation of educational model based on designed curriculum.

This basis stimulated the implementation of Curriculum Development Evaluation Meeting by Board of IDIA Leaders on Saturday night (05th April 2014) under Rector Assistant I on Academic Bureau, Drs. Hisyam el-Qodri, M.Si. The meeting was attended by Rector Assistant II on Administration and Financial, Dean board, boards of study program head, Academic Bureau members, Administration and Financial bureau members, Heads of *Ma'had* for female, and representative of Institute for Quality Assurance Center (LPJM) IDIA Prenduan.

As the result, *Alhamdulillah*, there are some consensus and recommendations for curriculum development that includes institution and boarding-school curriculum. However, the the most important one is the readiness and strong desire from each faculty and study program board to always gather and dig up information from out of Pesantren and combine it with implemeted system based on *al-muhaafazhotu 'ala al-qadiimi as-shaalih wal akhdzu bil jadidi al-ashlah*, to increase the education quality on each responsibility field.
